VIPER ICE GUARD

EMERGENCY **ICE-DAM** SOLUTION

100% NON CORROSIVE | UNPARALLELED
PERFORMANCE

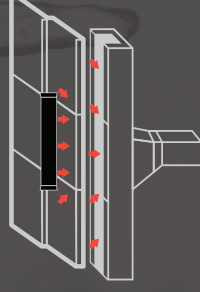

ENVIRONMENTALLY FRIENDLY

EASY 3 STEP APPLICATION

ROOF & GUTTER

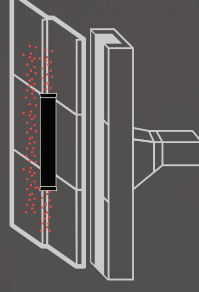

STEP 1

Spray or pour **VIPER ELITE™** in rain gutters, drop outlets & downspouts, and where ice dams have accumulated.

STEP 2

Pour **VIPER NAAC™** above ice dam to create a better flow of water through the ice dam.

STEP 3

Place **VIPER ROOF ROLL™** 12-24 inches above rain gutter drop outlets (or directly in the gutter) where ice dams occur to prevent further build up.
